Aleksandra Grigorchenko

WEB DEVELOPER | JAVA

Aspiring backend developer with a strong foundation in Java and a proven track record in client relationship management. Holding a bachelor's degree focused on psychology and pedagogy, I possess excellent communication skills and a deep understanding of user needs. Eager to leverage my knowledge in developing scalable and reliable server-side solutions. Proficient in Java, Spring Framework, and SQL, and committed to continuous learning in these areas. Seeking opportunities for professional growth and involvement in exciting projects.

WORK EXPERIENCE

03/2023 - 07/2023

Reshim Hub

VOLUNTEER QUALITY ASSURANCE TESTER

I voluntarily contributed by drafting and executing test cases for Reshim Hub. My responsibilities included meticulously documenting test scenarios and conducting thorough evaluations to ensure the quality and functionality of project implementations.

02/2019 - 03/2023

Goethe-Institut

CLIENT MANAGER AND COURS ADMINISTRATOR

Course and examination participant management for children and adult courses at the Goethe-Institut in Novosibirsk (approx. 400 course participants per trimester)
- Database maintenance in SAP system (OSKA)
- Technical support for course participants regarding Zoom and learning platform (Moodle)
- Trimester, course, and exam planning
- Customer issue management

EDUCATION

2023 - 2024

Tel-Ran GmbH, Backend Web Development

CERTIFICATE IN JAVA BACKEND DEVELOPMENT

I completed a 9-month program in Java Backend Development, specializing in server-side programming, database management, and system architecture. My project focused on developing a web application for a pizzeria, demonstrating my proficiency in Java, Spring Framework, and SQL to create an efficient backend system for managing orders and inventory. This experience enhanced my skills in software development and problem-solving in a practical business setting.

2022 - 2023

Hexlet, Manual QA Testing

CERTIFICATE IN MANUAL QA TESTING

I have completed comprehensive training in Manual QA Testing, equipping me with essential skills in creating test cases, executing test scenarios, and ensuring software quality through meticulous testing methodologies. My training also included hands-on experience in defect identification, reporting, and collaboration within testing teams.

2013 - 2017

Novosibirsk State Pedagogical University, Education, Social Pedagogy

BACHELOR'S DEGREE IN PEDAGOGY

Novosibirsk - I specialized in Adult Education, focusing on pedagogy, andragogy, and psychology. My coursework provided me with skills in designing educational programs for adults. My thesis explored the topic of procrastination.
